

Course Preparation

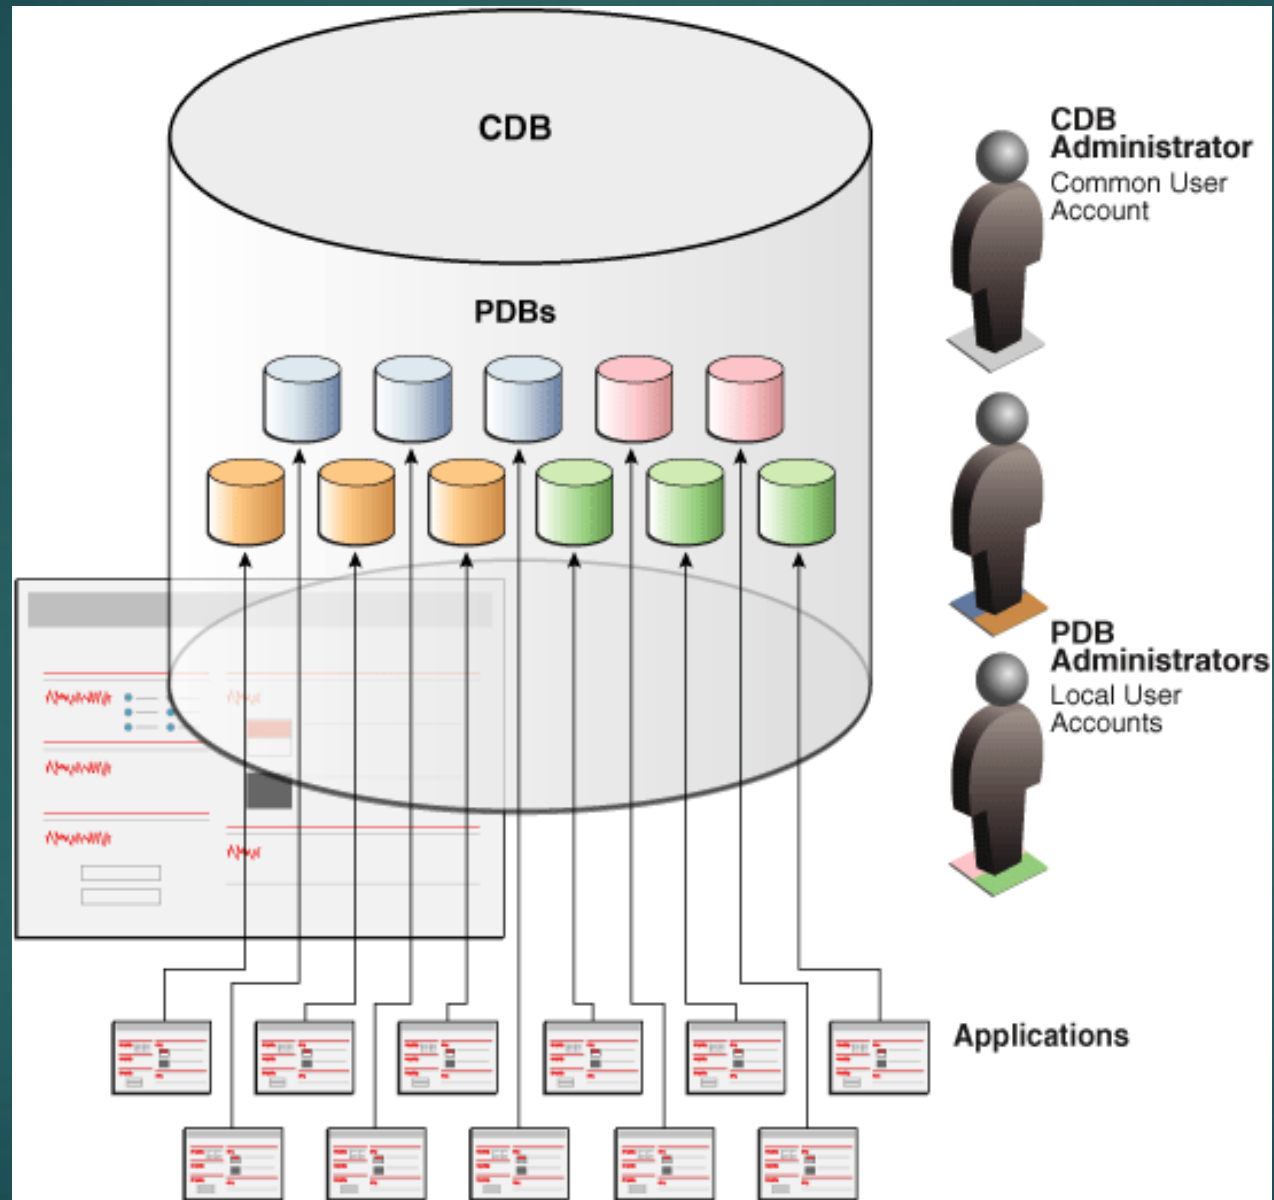

- ❖ Review the Oracle 12c Architecture
- ❖ Review basic commands in Oracle 12c
- ❖ Create new pluggable database
- ❖ Create the HR Schema
- ❖ Navigate the HR Schema

Note: In the Bonus section , you will have full information about installing Oracle 11g/12c. These videos from my course :

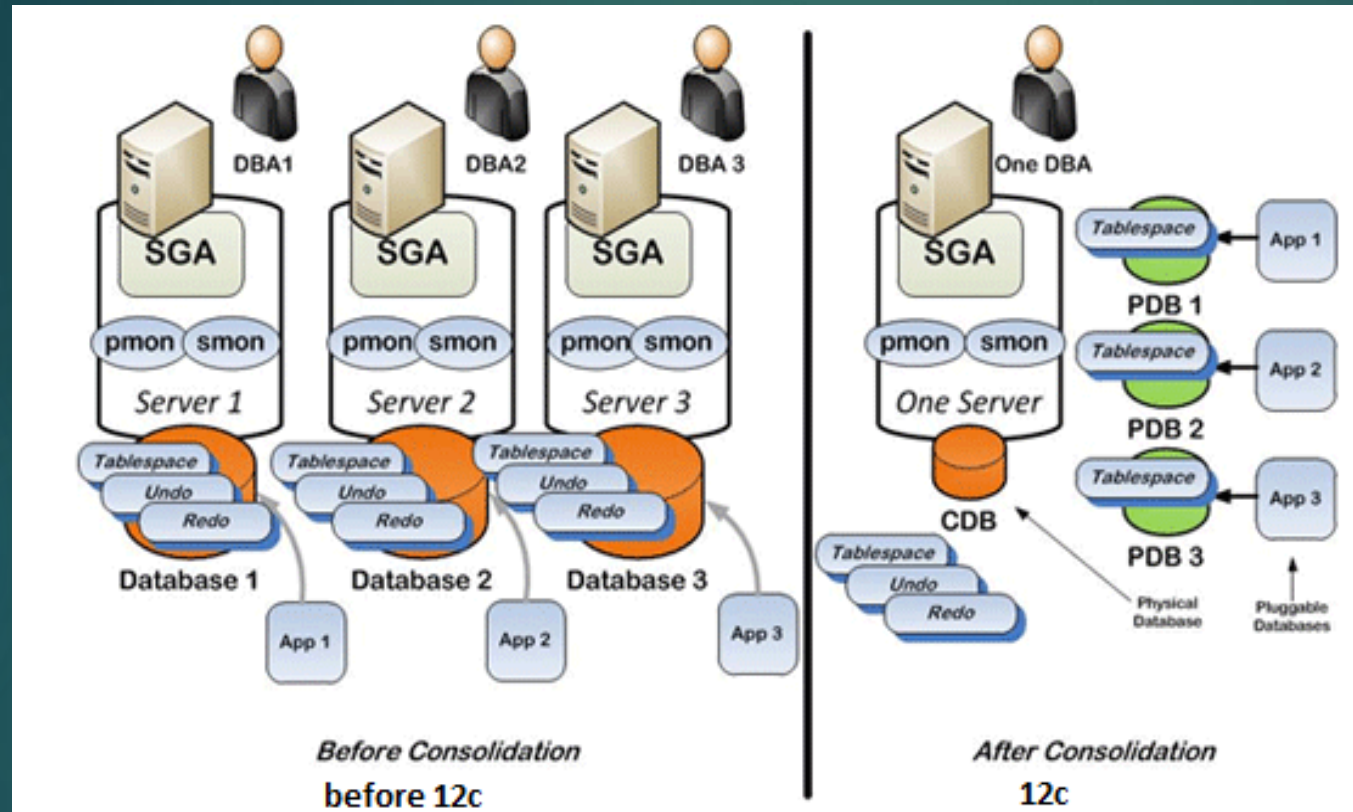

Oracle Database 12c SQL Certified Associate 1Z0-071

<https://www.udemy.com/oracle-database-12c-sql-certified-associate-1z0-071/>

Oracle 12c Architecture

Comparison between 12c and before 12c (11g for example)

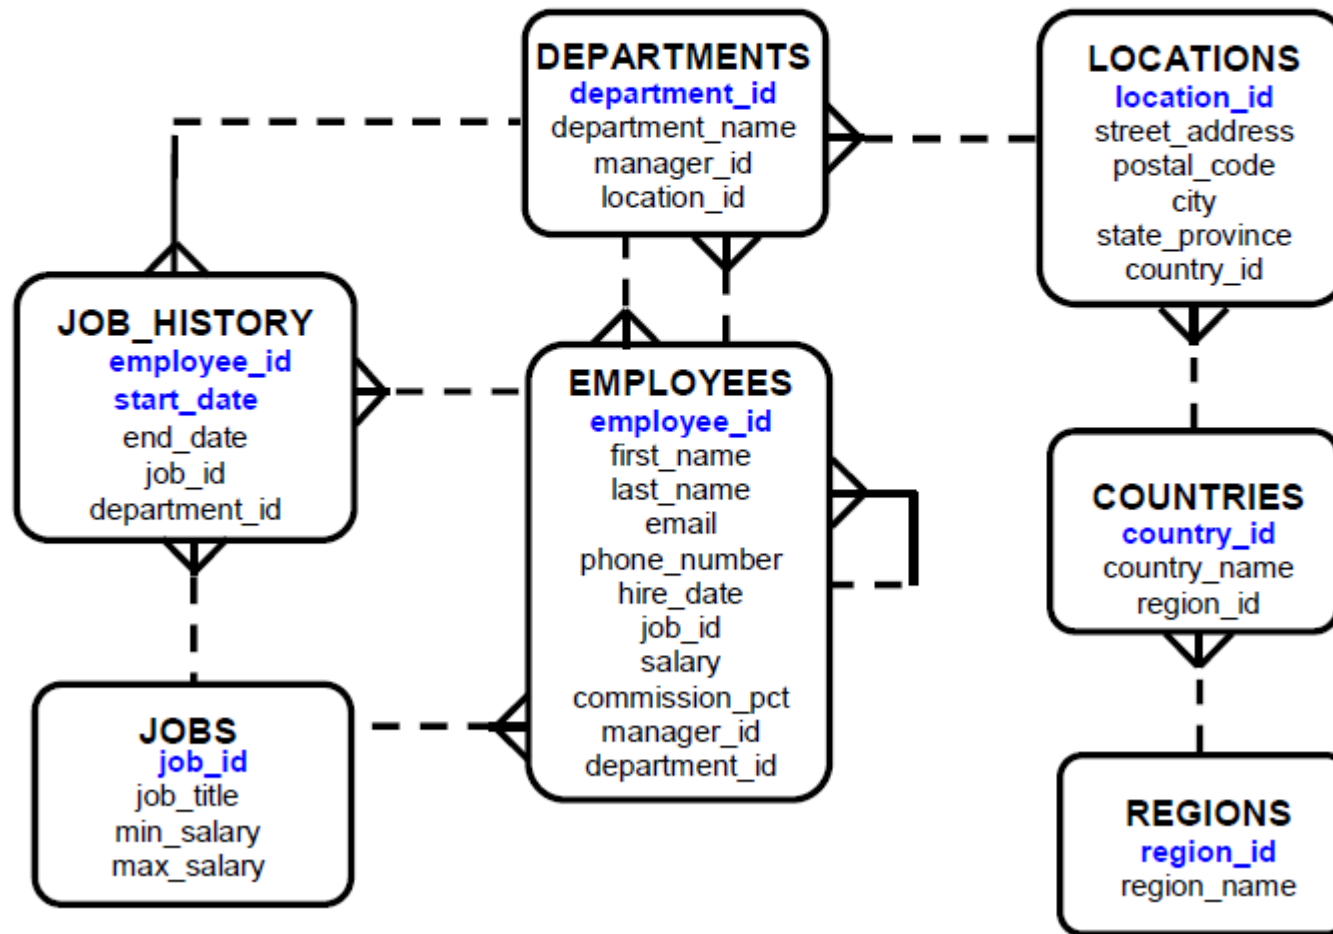

- Reduce cost
- Saving resources
- Easy maintenance
- Easy backup
- Easy cloning
- Separation of rules
(PDB Admin vs CDB Admin)

Review basic commands in Oracle 12c

- Show con_name
- Select name, open_mode from V\$pdb
- Alter session set container = **dbname**
- Alter pluggable database **dbname** open | close

The Human Resources (HR) Schema

Thank You
